

Data Sheet

MALCLEANSE – (THICK) CLEANER for BRICK & CONCRETE

DESCRIPTION:

A strong acidic liquid specifically formulated to remove heavy grime deposits from sandstone and brick.

ADVANTAGES:

Will effectively remove heavy grime deposits from sandstone and brick when used in conjunction with pressure washing. Will cling to vertical surfaces allowing a longer dwell time.

COLOUR : Straw coloured thixotropic liquid.

PACK SIZE: 5 Litres

COVERAGE RATE:

Should be applied at 2.4 m²/Litre (12m²/ 5 Litres).

SURFACE

Pressure wash the area to be treated to prevent & to pre-wet prior to application of product to prevent unnecessary absorption of product.

PREPARATION:

It may be necessary to degrease the area prior to being cleaned Brick Degreaser

APPLICATION:

Apply undiluted or diluted (1:1 < 1:3) MALCLEANSE - THICK BRICK CLEANER with a bristle brush to the affected area, starting at the top and working to natural breaks, cover the area evenly. Allow to dwell of up to 15-20 minutes before rinsing. Pressure wash with pumps capable of 1500 psi @ 14 lpm, with a slow even movement keeping lance 15-20cm away from the surface until complete rinsing has been achieved.

Always do a test area first.

STORAGE:

Store in closed containers. Avoid extremes of temperature.

SHELF LIFE: 12 months (in original sealed container).

HEALTH & SAFETY Refer to health and safety sheets.

The information contained on here & on other Data Sheets / MSDS Sheets is based on the present state of knowledge and current national legislation. It provides guidance on health, safety and environmental aspects of the products and should not be construed as any guarantee of technical performance or suitability for particular applications. The responsibility to ensure safe working conditions within the workplace remains with the user. The health hazard and general information contained within Material Safety Data Sheet are given as a guide to the precautions required maintaining a safe work environment.
