

Malcleanse - Graffiti Remover HSF

Product Data Sheet

Graffiti Remover HSF is a versatile, liquid, solvent based product designed for the removal of a wide range of paints and inks from various hard surfaces and fabrics.

It can be used for the removal of unwanted graffiti on internal surfaces as well as exterior paintwork and panelling.

ADVANTAGES

- Is effective on a broad cross section of inks and paints
- Can be used on fabrics
- Easy to apply in liquid form – leaves no residue
- Excellent on exteriors

FOR BEST RESULTS

Wipe or brush onto the affected area. Allow to work for up to 1 minute *maximum*, then de-activate the product by wiping/washing off with water & a Hard Surface Cleaner.

If graffiti is being removed from delicate fabrics it is advisable to carry out a test beforehand on a discreet area before general application. Further applications may be required for stubborn graffiti.

N.B. Graffiti Remover HSF contains solvents, which may damage certain surfaces. Always test on samples or on a discreet area first. After a contact time of 5 minutes Super Graffiti Remover will begin to soften paint.

HAZARDS IDENTIFICATION

Graffiti Remover HSF is classified as IRRITANT.

Protective clothing and solvent resistant gloves should be worn. Goggles are advisable, particularly if spraying. As a sensible precaution keep away from naked flames and operate a NO SMOKING policy. Ensure good ventilation.

The information contained on here & on other Data Sheets / MSDS Sheets is based on the present state of knowledge and current national legislation. It provides guidance on health, safety and environmental aspects of the products and should not be construed as any guarantee of technical performance or suitability for particular applications. The responsibility to ensure safe working conditions within the workplace remains with the user. The health hazard and general information contained within Material Safety Data Sheet are given as a guide to the precautions required maintaining a safe work environment.
