

## MOSS & ALGAE KILLER

### DESCRIPTION

A highly effective solution for destroying moss, mildew, mould, fungus and algae and protecting against re-growth. Unlike conventional products based on acids and caustics Moss-Go not only removes the surface growth, it also destroys the spores which produce the new growth and is safer to use both for the operator and the treated surfaces. Can be used on concrete, wood, tar, bricks & slates.

### BENEFITS

- \* Safe to use, does not burn surfaces..
- \* Contains no acids, bleaches or caustics.
- \* Economical to use.
- \* Removes spores as well as surface growths.
- \* Can be use indoors and outdoors.

### HOW TO USE

For interior use to remove black mould etc wet the surface with 1:5 solution and allow to soak in. Clean with a brush or cloth. Apply a second treatment diluted with 10 parts water to protect against regrowth. When using in food preparation areas avoid contact with foodstuffs. If using in a greenhouse do not spray onto plants.

For exterior use it is advisable to use in dry weather. If surface is dry apply product as for interior application above. If surface is wet then apply product **undiluted**. Repeat process regularly until algae and mould have been killed. To accelerate removal use a stiff brush.

### WHERE TO USE

Construction Industry, Building Contractors, Hospitals, Hotels, Schools and Colleges, Industrial maintenance departments, Government departments, Leisure Centres and Swimming Pools, Road and Transport industry, Boats and Marine industry, Farming Establishments.

After killing / removing moss & algae Malcleanse (Byotrol) Algae Control will keep the algae under control.
